

MINI WINCH STACKER

PART NO. FSR013

UP TO
150KG

The new mini winch stacker is the ideal ergonomic lifting solution, able to hold up to 150kgs. It is a manually operated cable winch lifting system with full cable housing. This mini winch stacker features robust lightweight steel construction, forks that adjust from 132mm to 520mm, an easy to operate hand winch, and handles with rubber grip. It features two 100mm rubber loading wheels, and two 100mm polyurethane brake castors, boosting both manoeuvrability and security. Visible yellow colour, and solid 500 x 530 x 90mm platform which comes standard with this model.
